

**AMENDMENTS TO THE CLAIMS:**

Please cancel claim 7 and amend the claims as follows:

1. (Currently Amended) A crop oil concentrate (COC) comprising:  
one or more amine surfactants ~~chemistries~~;  
a phosphate ester; and  
a hydrocarbon oil.
2. (Currently Amended) ~~A composition~~ The COC according to claim 1 where  
wherein the surfactant is an alkyl amine alkoxyate.
3. (Currently Amended) ~~A composition~~ The COC according to claim 2 where  
wherein the surfactant is a tallow amine ethoxylate.
4. (Withdrawn) A composition according to claim 1 where surfactant is a  
polyetheramine alkoxyate.
5. (Withdrawn) A composition according to claim 4 where surfactant is an alkyl  
polyetheramine ethoxylate.
6. (Withdrawn) A composition according to claim 1 where surfactant is an alkyl  
diamine alkoxyate.
7. Cancelled.
8. (Original) The method of controlling weeds by diluting a composition  
according to any foregoing claim into a spray tank with one or more pesticides and  
applying to a plant.

9. (Original) A microemulsion-forming concentrate which comprises: a) an amine surfactant component; b) a phosphate ester component; and c) a hydrocarbon oil component.
10. (Currently Amended) A microemulsion which comprises: a) an amine surfactant component; b) a phosphate ester component; c) a dearomatized hydrocarbon oil component; and d) a major amount of water.
11. (Original) A microemulsion which comprises: a) an amine surfactant component; b) a phosphate ester component; c) a hydrocarbon oil component; d) a major amount of water; and e) at least one agriculturally-active material.
12. (Original) A material according to any foregoing claim which comprises at least one agricultural adjuvant.

Please add the following new claims:

13. (New) The COC of claim 1, wherein the hydrocarbon oil comprises a dearomatized hydrocarbon oil.
14. (New) The COC of claim 13, wherein the w/w% of the dearomatized hydrocarbon oil is greater than the w/w% of the one or more amine surfactants.
15. (New) The COC of claim 14, wherein the w/w% of the phosphate ester is greater than the w/w% of the one or more amine surfactants.
16. (New) The concentrate of claim 9, wherein the hydrocarbon oil component comprises a dearomatized hydrocarbon oil.

17. (New) The concentrate of claim 16, wherein the w/w% of the dearomatized hydrocarbon oil component is greater than the w/w% of the amine surfactant component.
18. (New) The concentrate of claim 17, wherein the w/w% of the phosphate ester component is greater than the w/w% of the amine surfactant component.
19. (New) The concentrate of claim 18, wherein the amine surfactant component is a tallow amine ethoxylate.
20. (New) The concentrate of claim 19, wherein the concentrate contains 60 w/w% of dearomatized hydrocarbon oil.
21. (New) The concentrate of claim 18, wherein the concentrate further comprises water.
